SKILLS

Penetration Testing · Metasploit · nmap ·
Burp Suite · Wireshark · Nessus

EDUCATION

New York University
Bachelor of Science in Computer
Science
New York City, New York
01/2012 - 01/2016

KEY ACHIEVEMENTS

- Reduced System Vulnerabilities**
Led initiatives that decreased system vulnerabilities by 30% through focused penetration testing and security enhancements.
- Enhanced Incident Response Efficiency**
Developed threat assessments and security protocols leading to a 25% rise in incident response efficiency.
- Strategic Client Security Improvements**
Collaborated on improvement strategies that increased client satisfaction and trust, raising service ratings by 15%.
- Security Best Practice Implementation**
Implemented security measures company-wide, resulting in a 40% reduction in risk exposure over four years.

INTERESTS

Cybersecurity Innovation

Dedicated to advancing cybersecurity measures to protect digital infrastructures from evolving threats and vulnerabilities.

OLIVIA DAVIS

ETHICAL HACKER | PENETRATION TESTING | CYBERSECURITY

SUMMARY

With 10 years of experience in cybersecurity, specialized in penetration testing, strengths lie in using Metasploit and nmap to identify system vulnerabilities effectively. Demonstrated expertise in threat analysis and communication skills have been pivotal in reducing client vulnerabilities by 30%. Committed to leveraging analytical skills and industry knowledge in enhancing client security frameworks.

EXPERIENCE

SecureTech Solutions

New York City,
New York

Senior Ethical Hacker

01/2025 - Present

- Conducted penetration tests on client systems using Metasploit, identifying and mitigating over 200 vulnerabilities annually.
- Simulated cyber attacks, leading internal reviews to strengthen security protocols, reducing risk exposure by 40%.
- Collaborated with cross-functional teams to implement security best practices, enhancing defense mechanisms by 30%.
- Coordinated with client representatives in strategic discussions to address risks, improving client trust and satisfaction.
- Developed advanced threat assessments and security protocols, resulting in a 25% increase in incident response efficiency.

DataShield Security

Brooklyn, New York

Ethical Hacker

06/2019 - 12/2024

- Led team efforts in conducting comprehensive security assessments, which decreased potential breach points by 35%.
- Utilized Nessus and Burp Suite for vulnerability scanning, providing detailed reports and security audits to stakeholders.
- Collaborated with IT teams to remediate discovered vulnerabilities, enhancing security measures across networks.
- Mentored junior analysts in cybersecurity best practices, improving the team's overall assessment performance by 20%.

TechGuard Networks

Manhattan, New
York

Security Analyst

08/2016 - 05/2019

- Monitored network traffic using Wireshark to detect abnormal activities, reducing false positives by 15%.
- Performed security assessments leading to timely identification of emerging threats and reducing potential breaches.
- Coordinated with developers in secure application development, resulting in a 20% drop in security vulnerabilities.
- Facilitated regular training sessions on cybersecurity awareness, enhancing team knowledge on threat prevention techniques.
