EDUCATION

Bachelor of Science
Cyber Security

University of Southern California

📅 2017 - 2021

📍 Los Angeles, CA

SKILLS

- Splunk
- Snort
- Nessus
- Cisco ASA
- Symantec Endpoint Protection
- Wireshark
- Cuckoo Sandbox
- Digital Guardian

WORK EXPERIENCE

Junior Cyber Security Analyst

Symantec

📅 2022 - current

📍 Mountain View, CA

- Championed the deployment of Splunk, enhancing log analysis capabilities and reducing incident response time by 22 hours per month
- Organized regular vulnerability assessments using Nessus, **identifying and remediating 73 critical vulnerabilities within the network in four months**
- Accomplished Cisco ASA configurations, improving firewall rulesets for over 308 network devices
- Monitored network traffic with Wireshark, isolating malicious activity and preventing an estimated \$20,336 in potential damages

Cyber Security Intern

Cisco Systems

📅 2020 - 2021

📍 San Jose, CA

- Supervised the implementation of Digital Guardian, protecting sensitive data for over 209 users across the organization
- Helped in the deployment and management of Cuckoo Sandbox, **analyzing over 56 malware samples to enhance threat intelligence**
- Aided in analyzing network traffic with Wireshark, capturing over 51 network sessions for threat detection
- Designed and executed security simulations using Splunk, increasing awareness of cyber threats among 152 employees

Technical Support Representative

Northrop Grumman

📅 2018 - 2020

📍 Los Angeles, CA

- Implemented and maintained Symantec Endpoint Protection for a network of 158 workstations, **slashing malware incidents by 72%** as measured over six months
- Enhanced network security by efficiently resolving over 208 incidences with Snort, ensuring customer satisfaction.
- Expedited resolution of Cisco ASA config tickets, maintaining a 93% success rate within SLA constraints.
- Achieved comprehensive data protection at Northrop Grumman by deploying Digital Guardian to 346 endpoints, significantly mitigating data loss risks.
