

Naomi Rodriguez

Research Data Scientist

Raleigh, NC
+1 919-555-4545
naomi.rodriquez@email.com

A research-focused data scientist with 8+ years of experience in developing novel machine learning methodologies and contributing to the field through publications and collaborations. Expertise in deep learning, statistical analysis, and experimental design. Passionate about pushing the boundaries of data science research and translating findings into real-world applications.

WORK EXPERIENCE

AI Innovations Lab, Palo Alto, CA

Research Data Scientist

Jan 2023 – Present

Led research initiatives, resulting in 12 publications in top-tier conferences (NeurIPS, ICML, KDD). Developed a novel attention mechanism, improving transformer efficiency by 45%, cited 250+ times. Collaborated with product teams to implement research findings in production systems.

DataForward Institute, Boston, MA

Senior Research Scientist

June 2019 – Dec 2022

Conducted research on deep learning models, focusing on improving their interpretability and robustness. Published research findings in leading journals and conferences. Mentored junior researchers and collaborated with cross-functional teams.

TechAdvance Research, Seattle, WA

Research Scientist

Aug 2016 – May 2019

Supported research projects, focusing on developing new machine learning algorithms. Assisted in conducting experiments and analyzing data. Contributed to writing research papers and presenting findings at conferences.

EDUCATION

Ph.D. in Computer Science

2016 – 2019

Stanford University, Stanford, CA

SKILLS

Deep Learning • Statistical Analysis • Experimental Design • PyTorch/TensorFlow • Academic Writing • Certifications • Google AI Residency

COURSES

Master of Science in Machine Learning
Massachusetts Institute of Technology (MIT), Cambridge, MA

2014 – 2016

GPA: 4.0/4.0

LANGUAGES
