Summary

A dedicated data scientist with 5+ years of experience in machine learning, statistical modeling, and data visualization. Skilled in Python, R, and cloud technologies. Eager to apply data-driven insights to solve complex business problems.

Experience

DataNova Analytics

Belgrade

Senior Data Scientist

03.2021 – Present

Developed machine learning models for predicting customer churn, increasing retention by 15%. Led a team of data scientists in implementing advanced analytics solutions. Improved data processing pipelines using Spark and Hadoop.

Quantify Solutions

Novi Sad, Serbia

Data Scientist

06.2018 – 02.2021

Built statistical models for analyzing market trends and forecasting sales. Conducted A/B testing to optimize marketing campaigns. Created interactive dashboards using Tableau and Power BI.

Insight Analytics

Belgrade, Serbia

Junior Data Analyst

08.2016 – 05.2018

Collected and cleaned data from various sources. Performed exploratory data analysis to identify key insights. Assisted senior analysts in preparing reports and presentations.

Education

University of Belgrade

Statistics, Belgrade, Serbia

2012 – 2016

Bachelor of Science

Skills

Python

R

Machine Learning

SQL

Tableau

Power BI

Cloud Computing

Languages

Serbian (Native)

English (Fluent)

German (Basic)

courses

Deep Learning Specialization

Coursera

2023

Completed a deep learning specialization, gaining expertise in neural networks, convolutional networks, and recurrent networks. Enhanced skills in building and deploying deep learning models.

certificates

Google Data Analytics Professional Certificate

Issued 2022

Demonstrates proficiency in data analysis, data visualization, and statistical analysis using Google Analytics tools. Validates skills in collecting, transforming, and analyzing data to drive business decisions.
