

RIYA DUBEY

Machine Learning Engineer

Mumbai, Maharashtra | riya.dubey@email.com | +91 XXXXX XXXXX | LinkedIn | GitHub

PROFESSIONAL SUMMARY

Machine Learning Engineer with 3+ years of experience developing and deploying machine learning solutions using Python, Scikit-learn, TensorFlow, and PyTorch. Skilled in data preprocessing, model development, evaluation, and building production-ready ML pipelines. Strong interest in solving real-world problems through scalable AI solutions in fast-paced startup environments.

TECHNICAL SKILLS

Languages: Python, SQL, JavaScript

Machine Learning: Supervised Learning, Unsupervised Learning, Feature Engineering, Model Evaluation, Predictive Modeling

Libraries & Frameworks: Scikit-learn, TensorFlow, PyTorch, Pandas, NumPy

Data & Tools: PostgreSQL, Jupyter, Git, GitHub, Docker

Additional: REST APIs, FastAPI, Data Visualization, MLOps Fundamentals

PROFESSIONAL EXPERIENCE

Machine Learning Engineer | Startup

2023 – Present

- Developed and optimized machine learning models for business-focused prediction and classification problems.
- Performed data cleaning, preprocessing, feature engineering, and exploratory data analysis on structured datasets.
- Trained and evaluated models using appropriate performance metrics and cross-validation techniques.
- Built reusable ML pipelines and integrated trained models into backend applications using FastAPI.
- Collaborated with software and product teams to convert business requirements into practical ML solutions.

Junior Machine Learning Engineer | Technology Company

2021 – 2023

- Implemented machine learning algorithms using Python, Scikit-learn, and Pandas.
- Prepared datasets and performed feature selection to improve model performance.
- Conducted model testing, comparison, and hyperparameter tuning.
- Created data visualizations and reports to communicate model results and insights.
- Used Git and collaborative development practices for maintaining ML projects.

PROJECTS

Customer Churn Prediction

- Developed a classification model to identify customers at risk of churn. Applied preprocessing, feature engineering, model comparison, and evaluation techniques.

Sales Forecasting System

- Built a machine learning-based forecasting solution using historical sales data. Performed data analysis and feature engineering to identify important trends and patterns.

EDUCATION

Bachelor of Engineering / Technology in Computer Science

University Name | 2017 – 2021

CERTIFICATIONS

Machine Learning Specialization • Python for Data Science • TensorFlow Developer Fundamentals

CORE STRENGTHS

Problem Solving | Analytical Thinking | Team Collaboration | Communication | Continuous Learning
