

SCARLETT ANDERSON

Full Stack Developer | Web Application Expertise

(234)-555-1234 • Email • linkedin.com • Washington, D.C.

Summary

Full Stack Developer with 6+ years of experience in .NET and 3+ years specializing in Angular. Skilled at building responsive, client-facing applications and scalable back-end systems that improve performance and user experience. Adept at translating business requirements into technical solutions and delivering high-quality web applications that drive measurable results.

Key Skills

C# • Angular • TypeScript • JavaScript • .NET Core • ASP.NET MVC • C# • RESTful API Development & Integration • HTML5 • CSS3 • Bootstrap • Responsive UI/UX • SQL Server • NoSQL Databases • Azure & AWS Cloud Deployment • Git • CI/CD Pipelines • Agile Methodologies • Performance Optimization & Debugging

Experience

Tech Innovate Solutions

Washington, D.C.

Senior Developer

01/2024 - Present

- Led a team of 5 to develop a robust .NET application, resulting in a 20% increase in application efficiency and customer satisfaction
- Spearheaded the migration of legacy systems to .NET Core, enhancing system performance by 30% and reducing server costs
- Implemented continuous integration and deployment practices, leading to a 50% reduction in deployment times and fewer rollbacks
- Authored comprehensive solutions documentation and facilitated a 25% improvement in maintenance efficiency through better codebase understanding

Global Tech Solutions

Arlington, VA

Full Stack Developer

08/2020 - 12/2023

- Developed an Angular-based frontend for a high-traffic e-commerce platform, enhancing user experience and boosting conversions by 15%
- Optimized database queries on SQL Server, reducing data retrieval times by 40% and supporting business analytics
- Collaborated with cross-functional teams to design a responsive web layout, which increased mobile user engagement by 20%
- Conducted rigorous code reviews and introduced unit testing practices to maintain a 99.9% uptime for critical applications
- Ensured web application security by integrating industry-standard encryption, thwarting potential data breaches

Innovative Coding Inc.

Fairfax, VA

Junior Software Engineer

06/2019 - 07/2020

- Initiated a project to refactor the back-end codebase in C#, enhancing code maintainability and reducing technical debt by 40%
- Assisted in the development of web services which enabled seamless integration with third-party services, enhancing system interoperability

Education

Georgetown University

Washington, D.C.

Master of Science in Computer Science

01/2010 - 01/2012

Courses

Advanced .NET Programming — Focused on enhancing .NET development skills, by Microsoft Certified Trainers.

Pro Angular Certification — Comprehensive training on Angular 2 and above, including industry best practices, by Angular Academy.

Projects

Contribution to Open Source Accounting Tool

Enhanced features and fixed critical bugs for an open-source accounting software - see the contributions at github.com/accounting-software

Development of Community Resource Platform

Developed key functionalities for a web-based community resource sharing platform - check the repository at github.com/community-resource
