

CARTER RODRIGUEZ

SKILLS

.NET Core · C# Development ·
ASP.NET MVC · Web APIs · Angular ·
React Front-End Development ·
SQL Server · NoSQL Databases ·
Cloud Architecture · Azure · AWS ·
Microservices · Containerization ·
Docker · Kubernetes ·
CI/CD Automation · Azure DevOps ·
Jenkins · Agile Leadership ·
Team Mentoring

PROJECTS

Collaborative Real-time Code Editor

Open-source project enabling real-time code editing across distributed teams. See work at github.com/CarterRodriguez/CodeCollab.

Customizable Dashboard Framework

Angular analytics dashboard for enterprise tools deployment (github.com/CarterRodriguez/DashFrame).

KEY ACHIEVEMENTS

Architecture Modernization

Led migration from monolithic to microservices, boosting scalability and maintainability.

Security Enhancement

Implemented advanced security patches, reducing vulnerabilities by 30%.

Performance Optimization

Cut load times by 20–40% across multiple platforms via optimized .NET code and queries.

.NET Full Stack Developer | Software Architecture | Technical Leadership

+1-(234)-555-1234 Email [linkedin.com](#) San Antonio, Texas

SUMMARY

Full Stack Developer with 8+ years of experience delivering scalable enterprise solutions using .NET Core, C#, JavaScript, Angular, and SQL. Adept at architecting cloud-native applications, optimizing performance, and leading cross-functional teams. Recognized for driving system efficiency gains of 25%+, reducing deployment cycles through CI/CD automation, and mentoring developers to adopt best practices in Agile environments.

EXPERIENCE

Senior .NET Developer 07/2023 - Present
TechDynamic Solutions San Antonio, Texas

- Architected and implemented a scalable .NET Core solution for a finance SaaS platform, boosting system efficiency by 25%
- Led a cross-functional team of 4 in the successful deployment of a major update, resulting in a 15% reduction in load times
- Created robust CI/CD pipelines using Jenkins and Ansible, automating deployments which decreased manual intervention by 40%
- Applied expertise in SQL Server to optimize database performance and achieve a 10% cost-saving in resource allocation
- Regularly consulted with clients to translate business needs into high-level project plans, ensuring alignment with strategic objectives

Full Stack Developer 01/2020 - 06/2023
Innovative DevWorks Houston, Texas

- Developed and maintained a suite of ASP.NET MVC web applications, improving code quality and maintainability by refactoring legacy systems
- Integrated React components into existing applications to improve user experience and page performance by over 30%
- Contributed to a 20% increase in application resilience by implementing Docker and Kubernetes in production environments
- Spearheaded the migration of a large database from SQL to a NoSQL architecture, enhancing scalability and flexibility

Software Developer 08/2017 - 12/2019
CodeCrafters Inc. Austin, Texas

- Built highly responsive web applications using Angular, leading to a 20% increase in customer engagement
- Refined back-end API services with a focus on clean, scalable code and RESTful principles
- Played a pivotal role in a project that won 'Best Cloud Solution' at a regional tech award event
- Automated repetitive tasks which reduced the time required for project setup by 50% and improved team efficiency

EDUCATION

Master of Science in Software Engineering 2017
University of Texas at Dallas Dallas, Texas

CERTIFICATION

Certified .NET Core Developer
Microsoft, 2019
