SUMMARY

React Full Stack Developer with 6+ years of experience building scalable web applications with React, TypeScript, and Python. Proven record of optimizing performance (15–40% gains), implementing REST APIs, and deploying cloud-native applications on AWS. Adept at collaborating across teams to deliver complex projects on time and contributing to open-source initiatives that enhance accessibility and performance.

EXPERIENCE

Full Stack Developer

TechStartup Ltd

📅 2019 - 2021 📍 New York, NY

- Developed new features and enhancements for the application using React and TypeScript.
- Implemented REST APIs to connect the application to the backend services.
- Optimized REST API calls to reduce load times resulting in a 15% increase in page speed.
- Collaborated with cross-functional teams to ensure timely delivery of project milestones.
- Debugged and resolved application issues to improve user experience.

Software Engineer

BigTech Inc

📅 2017 - 2019 📍 New York, NY

- Developed new features and enhancements for the web application using React and AWS.
- Implemented and maintained backend services using Python and PostgreSQL.
- Optimized database queries resulting in a 40% reduction in downtime.
- Implemented machine learning algorithms to improve user experience resulting in a 25% increase in engagement.
- Collaborated with cross-functional teams to ensure timely delivery of project milestones.

Full Stack Developer

Digital Agency

📅 2015 - 2017 📍 New York, NY

- Developed new features and enhancements for web applications using React and SQL.
- Implemented responsive designs resulting in a 15% increase in mobile traffic.
- Collaborated with clients to gather requirements and provide technical solutions resulting in a 100% satisfaction rate.
- Collaborated with cross-functional teams to ensure timely delivery of project milestones.
- Debugged and resolved application issues to improve user experience.

EDUCATION

Bachelor of Science in Computer Science

University of London

📅 2015 📍 London, UK

TECHNICAL STACK

React

TypeScript

JavaScript

Responsive UI/UX

REST APIs

Python

Node.js

SQL

PostgreSQL

AWS, Docker, Git, Agile/Scrum

Machine Learning Integration

Performance Optimization

Open-Source Contributions

KEY ACHIEVEMENTS

Open Source Contributions
Contributed to React and Python libraries to improve accessibility and performance, strengthening visibility in the developer community.

Team Leadership
Led a cross-functional team of developers, designers, and product managers to deliver a complex web application on time and within budget.

Performance Optimization
Solved complex coding challenges in React and Python, improving application performance and reducing load times by up to 40%.
