WORK EXPERIENCE

Carle Health - Azure Java Developer

2024 - current

Urbana, IL

- Built serverless solutions using Azure Functions, enabling automated appointment reminders and **lowering no-shows by 22%**.
- Developed RESTful APIs with Spring Boot for digitizing document management, shortening patient history retrieval speeds by 6 minutes.
- Used Azure SDK to streamline cloud operations, reducing deployment time by 39 minutes.
- Designed a role-based access system for securing 1865+ patient records with Azure Blob Storage, improving HIPAA compliance.

John Deere - Cloud Support Associate

2022 - 2024

Urbana, IL

- Reported 7 high-priority manufacturing incidents using a diagnosis application built on Azure App Services.
- Set up automated alerts for detecting anomalies, allowing for proactive decision-making and 29% fewer outages every year.
- Assisted in designing cloud system for 3 key projects, **mitigating latency by 44 ms**.
- Managed 331TB+ data in Azure Storage, ensuring 97% availability and compliance with industry regulations.

Illini Tech - Junior Cloud Developer

2020 - 2022

Urbana, IL

- Wrote 29 unit tests for Java applications, achieving an 86% code coverage rate.
- Helped teammates scale a Azure Cosmos DB database to handle 7,221 daily transactions.
- Resolved 11 incidents in Azure DevOps, **increasing system uptime from 96% to 98.9%**.
- Presented 4 emerging cloud technologies to senior developers, influencing future investments.

EDUCATION

University of Illinois - Bachelor of Science, Computer Science

2016 - 2020

Urbana, IL

SKILLS

Azure SDK; Java; Azure App Services; Azure Functions; Azure Storage; Azure Blob Storage; Azure Cosmos DB; Spring Boot; Maven; Azure DevOps
