EDUCATION

Manipal University Jaipur

Bachelor of Technology in Information Technology; GPA: 7.59/10.0

Jaipur, RJ

Sept. 2023 – April 2027

CERTIFICATIONS

Microsoft Certified: Azure Fundamentals (AZ-900) | Issued by Microsoft

EXPERIENCE

IT Infrastructure Intern

May 2025 – August 2025

Digitechtelesol

Mumbai, MH

- Managed physical server infrastructure and network protocols (TCP/IP, DNS), building foundational knowledge for **Hybrid Cloud deployments**.
- Optimized network performance and connectivity to achieve 99% uptime, mirroring **Enterprise SLA standards** used in Cloud environments.
- Deployed and configured biometric security systems and IP surveillance, ensuring seamless software-hardware integration via local networks.

Web Development Intern

May 2024 – August 2024

Midbrains Technologies

Pune, MH

- Developed high-performance front-end interfaces using **HTML5, CSS3, and JavaScript (ES6+)** for commercial platforms.
- Collaborated on UI/UX design for high-traffic sites, improving accessibility and user retention metrics for healthcare and finance clients.
- Streamlined website performance for srhworld.com by optimizing asset loading and implementing clean code practices.

PROJECTS

Full-Stack Real-Time Chat Application | *MongoDB, Express, React, Node.js, Socket.io*

February 2026

- Developed a real-time messaging platform using the **MERN stack**, featuring instant message delivery via WebSockets.
- Implemented secure user authentication and authorization using **JSON Web Tokens (JWT)** and encrypted password storage.
- Designed a responsive UI with state management to handle active user lists, chat history, and real-time status updates.

Dog Breed Classifier (CNN) | *Python, TensorFlow, Keras, Flask*

December 2025

- Built a Deep Learning model using **Convolutional Neural Networks (CNN)** to classify 120+ breeds with high precision.
- Applied **Transfer Learning** and data augmentation techniques to optimize model performance on diverse image datasets.
- Deployed a Flask-based web interface allowing users to upload images and receive real-time breed predictions.

Local LLaMA Assistant | *Python, Tkinter, LLaMA-CPP*

November 2025

- Designed a desktop chat interface using **Tkinter** to interact with Quantized LLaMA models for offline AI processing.
- Optimized local inference performance by managing system RAM allocation and leveraging specialized C++ backends for Python.

TECHNICAL SKILLS

Cloud & DevOps: Microsoft Azure (AZ-900), Docker, Git/GitHub, Linux/Bash, CI/CD Basics

Languages: Python, Java, JavaScript (ES6+), SQL (MySQL/PostgreSQL), C/C++

Web Development: React, Node.js, Express, HTML5/CSS3, Socket.io

Machine Learning: TensorFlow, Keras, OpenCV, Scikit-learn

Core IT: Data Structures, Computer Networks, DBMS, Operating Systems
