

SOPHIE MARTIN

Cyber Security Analyst | Network Monitoring | SIEM

+1-(234)-555-1234 @ help@enhancv.com linkedin.com Seattle, Washington

SUMMARY

With 3 years of experience in cybersecurity, specializes in SIEM tools and network monitoring to enhance threat detection. Known for analytical skills and team collaboration, successfully led projects improving security by 30%. Passionate about advancing knowledge in cybersecurity to drive impactful changes.

SKILLS

SIEM Tools Network Protocols Firewall Configuration Python Incident Response Splunk

EXPERIENCE

Junior Cyber Security Analyst

SecureNet Solutions

01/2024 - Present Seattle, WA

- Led a project to implement new SIEM protocols, resulting in a 30% improvement in threat detection accuracy.
- Conducted bi-weekly network traffic analysis, identifying potential threats early and reducing incident response time by 20%.
- Collaborated with cross-functional teams to execute vulnerability assessments, improving overall network security posture.
- Assisted in configuring firewalls and security tools, enhancing protection against unauthorized access.
- Provided training to junior team members on security protocols, improving team efficiency in handling cyber incidents.

Cyber Security Intern

CyberSafe Networks

06/2023 - 12/2023 Seattle, WA

- Monitored security alerts closely and collaborated with senior analysts to swiftly address emerging threats.
- Developed standard operating procedures for incident response, which improved response time by 15%.
- Participated in daily team meetings to discuss cybersecurity trends and recommended updates to security protocols.
- Assisted in managing a threat intelligence database, ensuring that all threat data was current and easily accessible.

IT Support Analyst

TechAssist Corp

07/2022 - 06/2023 Seattle, WA

- Responded to technical support queries efficiently, resolving 80% of cases on the first call.
- Documented and shared common technical issues with team members, thereby increasing the technical team's overall effectiveness.
- Assisted in maintaining the security of internal systems through regular updates and audits, preventing potential vulnerabilities.
- Played an integral role in network troubleshooting and system repairs, minimizing downtime for end users.

VOLUNTEERING

Volunteer Cybersecurity Advisor

Internet Safety Initiative

01/2025 - Present

Helped small businesses implement basic cybersecurity measures to protect against common threats.

- Conducted workshops on cybersecurity awareness, improving participant knowledge by 40%.
- Created easy-to-follow guidance materials on securing digital assets for non-tech savvy users.

EDUCATION

Bachelor of Science in Cyber Security

University of Washington

01/2018 - 01/2022 Seattle, WA
