EDUCATION

B.S.
Mathematics and Economics
Rice University

📅 2011 - 2015

📍 Houston, TX

SKILLS

- MATLAB
- LightGBM
- Azure Synapse Analytics
- Kubernetes
- Plotly
- Time series forecasting
- Alation
- Coaching and mentoring
- Outcome-driven execution

PROFESSIONAL SUMMARY

Analytics leader with experience in predictive modeling, operational analytics, and business intelligence in complex enterprise environments. Delivers data-driven insights that improve efficiency, performance, and decision-making.

WORK EXPERIENCE

Data Science Manager Westlake Chemical

📅 June 2023 - current

📍 Houston, TX

- Directed MATLAB-based yield models for plant and feedstock scenarios, lifting margin capture by 13.8% across production planning cycles.
- Orchestrated Kubernetes deployment for plant-risk models, **cutting analytics refresh latency to 19 hours** from prior manual handoffs.
- Instituted Alation data standards for production, railcar, and inventory datasets, reducing critical lineage gaps to 4 during control reviews.
- Coached engineering and supply chain partners on experiment design, accelerating pilot-to-rollout decisions by 11 weeks.

Senior Data Scientist Energy Transfer Partners

📅 August 2019 - May 2023

📍 Houston, TX

- Engineered LightGBM models to flag compressor and pump underperformance, trimming unplanned volume loss by 37 basis points.
- Built time series forecasting for gas and NGL movements, improving nomination planning by \$2.7M in annualized imbalance avoidance.
- Developed and implemented anomaly-response protocols for pipeline operations, reducing **investigation turnaround from 5 days to 3.4 days**.

Business Analyst CenterPoint Energy

📅 March 2016 - July 2019

📍 Houston, TX

- Consolidated outage, work-order, and service-line data in Azure Synapse Analytics, reducing recurring report runtime to 47 seconds.
- Reconciled service-order and billing exceptions, lowering repeat customer contacts to 1.7 per 1,000 accounts.
- Streamlined KPI reporting with finance and operations, making variance packages **2.6x faster for leadership reviews**.
