

Justine Debowski

Senior Insurance Data Analyst

Senior Insurance Data Analyst with 10+ years of experience using SQL and Power BI to improve reporting accuracy by 17.4% and lead high-impact process improvements. Focused on advancing data-driven insurance strategy, stronger reporting governance, and sharper business decision support.

WORK EXPERIENCE

Pie Insurance

Senior Insurance Data Analyst

Denver, CO | January 2023 - current

- Engineered underwriting dashboards in Power BI that exposed class-code loss trends and improved quote review precision by 6.8%.
- Queried policy, claims, and pricing data in SQL to isolate audit mismatches, **cutting exception resolution time by 41 hours** per month-end cycle.
- Standardized reporting logic across actuarial and product partners, helping leadership compare performance across 39 states with cleaner underwriting visibility.

Argo Group

Data Analyst

Denver, CO | March 2019 - December 2022

- Built specialty-lines performance views in Tableau that helped underwriting leaders identify margin pressure 9 days earlier in the quarter.
- Mapped bordereaux and claims workflows in Visio, reducing handoff confusion to 1.7 follow-ups per reporting request.
- Modeled reserve and premium movement in STATA, **enhancing accuracy of reserve forecasts** across 24 product slices to support strategic pricing decisions.

IMA Financial Group

Junior Data Analyst

Denver, CO | July 2017 - February 2019

- Cleaned client and policy data with Pandas, increasing brokerage reporting completeness to 96.3% before renewal strategy reviews.
- Analyzed benefits and risk data in Adobe Analytics to surface digital engagement patterns that raised portal interaction depth to 3.6 actions per visit.
- Generated validation reports **reconciling 18,427 premium** and exposure records to enhance data integrity for advisor-facing dashboards.
