WORK EXPERIENCE

Data Analyst (AWS)

Salesforce

- 📅 June 2025 - current 📍 San Francisco, CA
- Architected Amazon Redshift revenue marts, **reducing dashboard lag by 18.7%** for finance and live-ops reviews.
 - Launched Amazon QuickSight views for product and publishing leads, providing actionable insights on key metrics to enhance decision-making for monetization and campaign performance.
 - Reconciled cross-region gameplay and commerce feeds, improving trust in KPI readouts used for quarterly forecasting.
 - Analyzed cohort movement and offer performance for live-ops managers, leading to optimized event-planning decisions across 6 franchise portfolios.

Data Analyst, Ads Delivery Commercial Operations

Uber

- 📅 May 2023 - May 2025 📍 San Francisco, CA
- Automated Amazon Glue pipelines for ads delivery datasets, trimming weekly campaign reconciliation by 2.3 hours for commercial ops partners.
 - Scaled Amazon EMR jobs across clickstream and billing inputs, stabilizing delivery reporting during high-volume spend periods.
 - Flagged pacing and attribution breaks before client escalation, protecting advertiser confidence in platform reporting.
 - Translated funnel and fulfillment patterns into budget-shift recommendations, **preserving \$1.84M** in at-risk ad spend.

Data Analytics Intern

Riot Games

- 📅 February 2023 - April 2023 📍 Los Angeles, CA
- Prototyped TensorFlow models to surface churn-risk signals from player behavior, giving analysts earlier warning on retention drops.
 - Executed queries on 3.7TB of gameplay data in Couchbase, enabling faster queries for a team of 4 interns analyzing gameplay trends.
 - Consolidated match, session, and support trends into concise dashboards for player engagement metrics, enabling teams to **expedite decision-making** on game adjustments.
 - Delivered a detailed report to 4 analytics mentors and 3 product partners, resulting in an increase in onboarding efficiency and focused engagement improvements.
