WORK EXPERIENCE

Creative Data Analyst

Leo Burnett

January 2026 - current / Chicago, IL

- Analyzed paid social performance in Meta Ads Manager, identifying audience and creative patterns that **lifted click-through rate by 7.3%** across flagship client campaigns.
- Built client-facing dashboards in Looker Studio that shortened weekly reporting turnaround by 11 days for account and strategy teams.
- Synthesized campaign findings into insight-driven recommendations that improved concept approval scores to 4.4/4.8 during creative review cycles.
- Developed detailed reports on media performance to guide biweekly optimization decisions for 6 active media campaigns.

Data Analyst Associate

Allstate

August 2023 - December 2025 / Northbrook, IL

- Queried policy and claims data in SQL to identify and correct discrepancies in reports, enhancing quote-to-bind accuracy by 8.1 basis points.
- Streamlined 17 active analytics requests across underwriting, operations, and reporting teams in Asana, enhancing collaboration and response efficiency.
- Streamlined recurring validation checks for operational reports, helping the team **complete monthly close support 3 days earlier**.

Data Analyst Intern

AbbVie

April 2023 - July 2023 / North Chicago, IL

- Prototyped presentation visuals in Figma, helping senior analysts deliver a final intern showcase rated 4.6/4.9 by program reviewers.
- Created detailed performance summaries using Excel for access and performance reviews to enhance project evaluation during a 12-week internship rotation.
- Documented trend findings that **achieved 96.4% accuracy** in weekly reports for cross-functional stakeholders, enhancing decision-making efficiency.
